# KLOSS Small

Design | **Kauppi & Kauppi**

KLOSS Small Recycling system is thoughtfully designed to simplify recycling by enabling the efficient organisation of materials. Its flexible, modular design allows it to be customised for a variety of environments and requirements, with the option to choose any RAL colour. The system offers three steel module sizes that can be combined in numerous configurations to deliver the precise form and functionality required. By selecting from various modules, colours, tops, and accessories, each sorting unit can be uniquely tailored, blending seamlessly with any interior style

Thanks to its versatile design, KLOSS Small is ideal for placement beside desks, on walls, or between furniture.

A sleek leg stand accessory complements the system, making KLOSS Small an excellent standalone option for corridors or as a compact recycling station in seating areas next to sofas and armchairs. The stand provides a light, airy feel without overshadowing the space.

KLOSS Small can be mounted individually on walls or set up in rows on slim leg stands, offering the same versatile options as the larger KLOSS units.

The KLOSS recycling system is also available in two other sizes and features - KLOSS and KLOSS Mini, this expansion elevates KLOSS into a comprehensive infrastructure of recycling furniture.
See separate product sheets for KLOSS and KLOSS Mini.

**KLOSS Small** Pearl white RAL 1013 with wall bracket

**KLOSS Small** Pearl white RAL 1013 with legs,
**KLOSS Mini** Old pink RAL 3014 with leg stand

## Sustainability and materials

- The modules are made of 20 % recycled steel with long durability.

- Circular product: modules can be disassembled and replaced, refreshed, repaired, refurbished and recycled.

- The steel body is made in parts that are joined together by the click method and are detachable for renovation.

- Container with base insert allows the use of paper bag.

- Container and base insert is made of 100 % recycled ABS plastic.

- The rubber inlet is made of black bio-based ECO EPDM rubber.

- The top is fixed and soft closing.

- KLOSS Small can hold up to 32-35 L

- EDP

## KLOSS Wheel

**Art.no. for KLOSS wheel refers to 1 piece, adapt the number based on your complete set-up. Black plain bearing wheel with nylon rim and rubber track. Black lacquered bracket.**

Wheel with and without brakes

Dimensions: Ø50 x H19mm

| Name | Description | Colour | Art no. |
|---|---|---|---|
| KLOSS Wheel | Without brake Load capacity 50 kg | Black | 32705303 |
| KLOSS Wheel | With brake Load capacity 50 kg Use 2 per setup | Black | 32705403 |

## Accessories: Fits all modules KLOSS Small

Rubber insert, legs and wheels are also available as accessories for Small and Mini.

| Product | Description | Size | Colour | Art no. |
|---|---|---|---|---|
| Container Small | Approx. 18 L. Recycled ABS plastic 3 mm. | Ø246 x H417 | Grey | 32715003 |
| Base insert Small | Insert with perforated grid Recycled ABS plastic 3 mm. | Ø185 x H60 | Grey | 32715103 |
| Rubber insert | Reversible Glass/PET insert for KLOSS tops with Ø130 holes. Black ECO EPDM rubber. | Ø150 | Black | 32705203 |

**Container 45 L and base insert.**

Base insert is used as bottom insert in the container. The perforated grid is anchored to ventilate moisture.

Add the base insert when using food waste bags as they often have a lower depth.

Stackable container with handle.

Rubber insert

## KLOSS Overview of placement of wheels & legs

**The overview below shows the recommended number of wheels or legs per set-up. Both wheels and legs are sold individually. When ordering wheels, choose 2 of the wheels with brakes.**
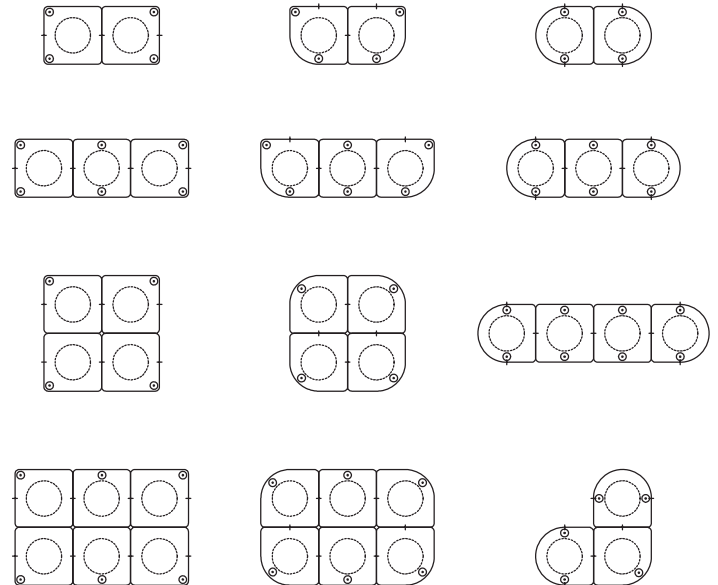

### Singular basic units

Placement of legs or wheels

### Selection of standard set-ups

Placements of legs or wheels (units on wheels are coupled)

## Accessories: Decal sheet

**KLOSS decal sheet -** Symbol Ø40 x H55mm (height of the whole decal)

## QUICK FACTS

| | | |
|---|---|---|
| Content of the declaration | Certification TreCe | Certification TreCe |
| Environment | ISO 9001:2015 | ISO 14001:2015 |
| Country of manufacture | Recycled material | Recycled material |
| Sweden | Steel sheet 20% recycled pre-consumer | 100% recycled pre-consumer ABS plastic |
| Country of manufacture | | |
| 54,04844 kg CO2e | | |

---

### EPD

KLOSS also has an EPD certification, which provides a transparent and detailed report on the environmental impact of a product throughout its life cycle. It allows you to compare materials and make informed and sustainable choices. Check the full EPD here: KLOSS - EPD

---

### Byggvarubedömning

KLOSS recycling system has been assessed by Bygvarubedömningen and received the highest rating "**Recommended**".

| | |
|---|---|
| BVB ID | 167660 |
| BSAB-code | XBD.6 - Containers, boxes and bins |
| BK04-codes | 11213 Storage furniture<br>11299 Furniture other |

This means that our assessed products are examined on chemical content, life-cycle, and sustainable supply chains.
In this way we contribute to making it easier to build sustainably. Read more on byggvarubedomningen.com

### SVHC/ECHA Candidate List

No chemicals on the ECHA Candidate List of SVHCs may be present in concentrations >0.1% by weight in the components, parts or chemicals used or incorporated in the manufacture of the furniture/product. See http://echa.europa.eu/sv/candidate-list-table

---

### Metall

The metal meets the requirements in table 1. The frame consist of cold-rolled steel plate and are manufactured in Sweden. In the production of steel blank, 20 % recycled pre-consumer material is used together with iron raw material ore (80 %).

**Table 1:** Metal requirements

| Requirements | Complies with |
|---|---|
| Metals which come into direct contact with the skin over a long period of time (e.g. armrests) must not be made of alloys containing nickel, chromium III or chromium VI. | X |

---

### Powder coating

The powder coating method offers both environmental and quality benefits as no solvents need to be added and the amount of waste is very small. In addition, the powder coating provides a durable and attractive finish. Compliance is shown in Tables 2 and 3.

**Table 2:** Requirements for lacquer.

| Requirements | Complies with |
|---|---|
| The content of aromatic solvents/hydrocarbons in coating products/preparations must not exceed 1.0% by weight. | X |
| Surface treatment with preparations containing VOCs may have a maximum applied VOC component of 60 g/m2 for office/public/outdoor environment. | X |

**Table 3:** Hazard class and hazard designation according to Regulation 1272/2008

| Faroclass | Indication of danger according to Regulation 1272/2008 | Complies with |
|---|---|---|
| **Acute toxicit** | H300, H301, H310, H311, H330, H331 | X |
| **Organ toxic** | H370, H371, H372, H373 | X |
| **Carcinogenic** | H350, H351 | X |
| **Mutagenic** | H340, H341 | X |
| **Toxic to reproduction** | H360, H361, H362 | X |
| **Allergenic** | H334 | X |
| **Environmentally hazardous** | H400, H410, H411, H412, H413<br>If for technical reasons the use of coating products labelled as environmentally hazardous (H400, H410, H411, H412, H413) is required, it can be accepted if the applied amount is <14g/per m$^2$ surface. | X |
| **Hazardous to the ozone layer** | H420 | X |

## Plastic - Container and base insert

The container and base insert consists of 100% recycled ABS plastic and meets the requirements for plastic, see Table 4.
recycling, we have permanently marked the bottom with the plastic type according to ISO 11469.

**Table 4: Plastic requirements**

| Requirements | | Complies with |
|---|---|---|
| Plastic parts >50 grams are permanently marked according to ISO 11469 | | X |
| Free from PVC (polyvinyl chloride) | | X |
| Phthalates/softeners with hazard statement H340, H350, H360 must not be actively added or the measured value per substance and detail must not exceed 0,1 % by weight. | | X |
| Short-chain chlorinated paraffins (SCCPs) must not be actively added or the measured value per substance and item must not exceed 0,01 % by weight. | | X |
| The following flame retardants have not been actively added or the measured value per substance and detail shall not exceed 0,1 % by weight. | | |
| Polybromerade bifenyler (PBBs)<br>Dekabromdifenyleter (dekaBDE)<br>Pentabromdifenyleter (pentaBDE)<br>Oktabromdifenyleter (oktaBDE)<br>Tris (2,3-dibrompropyl) fosfat (TBPP)<br>Tris (1-aziridinyl)fosfin oxid (TEPA)<br>Hexabromcyklododekan (HBCDD)<br>Tris (2 kloretyl) fosfat (TCEP)<br>Tris(1,3-dichloroisopropyl)phosphate (TDCPP) | CAS-nr: 59536-65-1<br>CAS-nr: 1163-19-5<br>CAS-nr: 32534-81-9<br>CAS-nr: 32536-52-0<br>CAS-nr: 126-72-7<br>CAS-nr: 5455-55-1<br>CAS-nr: 25637-99-4<br>CAS-nr: 115-96-8<br>CAS-nr: 13674-87-8 | X |
| No pigments containing arsenic, lead, cadmium, tin, chromium VI or mercury are actively added or that their content does not exceed 0.01% by weight measured value per item. | | X |

**Warranty:** The warranty is valid from the date of delivery of the product. Invoice/order number must be quoted for the warranty to be valid. The warranty does not apply to products that have been stored or assembled incorrectly, used in an inappropriate or improper manner, altered in appearance/function or cleaned with an incorrect cleaning method or cleaning products. The warranty does not cover damage in transit, normal wear and tear, scratches, marks or damage caused by impact or accident. The warranty does not apply if the product has been placed outdoors or in a humid environment, or if the product has been used for purposes other than those for which it is intended.

For products intended for outdoor use, the aforementioned humid environment does not apply, but the warranty period is halved for installation within 200 metres of a coastal environment. The warranty does not apply to outdoor products where surface corrosion occurs over time as this is purely aesthetic and can be remedied with touch-up paint.

## General care instructions

### Metal

Wipe with a slightly damp, soft lint-free cloth and mild detergent. Always wipe dry with a dry cloth.
Never use solvents on painted metal or abrasive materials.
