Popsicle

Design | **Jangir Maddadi**

Old pink RAL 3014

Popsicle is part of a range of waste bins for both indoor and outdoor environments. The frame is made of galvinised steel sheet that can be lacquered in our standard colours or any RAL colour. Popsicle holds 57 L, adapted for waste bags 85-125 L.

There are 3 different versions of leg stands, depending on how and where you want to place it. Naturally it is stainless steel for outdoor use and Swedish steel plate for indoor use, there are also different options for anchoring Popsicle to the foundation.

Popsicle

Recycling

Download CAD/BIM

Frame: Powder coated galvanised steel sheet
Lid: Stainless steel sheet
Legs: Powder-coated steel plate for interior use or stainless steel, powder coated shaft for outdoor use. Shaft with concrete footplate can be used for indoor and outdoor use
Volume: 57 L

Overview

- The frame in powder-coated galvanised steel sheet is manufactured in Sweden and consists of 20% recycled (preconsumer) material.
- The steel sheet is 100% recyclable.
- There are 3 different versions of leg stands for Popsicle, depending on how and where you want to place it.
- There are inlets on both the front and back. If placed outdoors, we recommend Popsicle with a lid for bird protection.

SVHC/ECHA's candidate list

No chemicals included in ECHA's candidate list of SVHC may be contained in levels of >0.1% by weight in the components, parts or chemicals that are included or used in the manufacturing of the furniture/product.
See http://echa.europa.eu/en/candidate-list-table

Surface treatment

Lacquer and stain are water-based and fulfil the requirements of Tables 1 and 2.
Safety data sheets according to REACH CLP Regulation No 1272/2008 will be sent on request

Table 1: Requirements surface treatment

Requirements	Complies
The content of aromatic solvents/hydrocarbons in surface treatment products /preparations may not exceed 1.0 % by weight	X
Surface treatment with preparations containing VOC may have a maximum applied VOC component of 60 g/m² for office/public/outdoor environment	X

Table 2: Hazard class and hazard statement according to Regulation 1272/2008

Hazard category	Hazard statement according to regulation 1272/2008	Complies
Acute toxicity	H300, H301, H310, H311, H330, H331	X
Toxic to body organs	H370, H371, H372, H373	X
Carcinogenic	H350, H351	X
Mutagenic	H340, H341	X
Toxic for reproduction	H360, H361, H362	X
Allergenic	H334	X
Dangerous to the environment	H400, H410, H411, H412, H413 If the use of surface treatment products is required for technical reasons, products labelled as dangerous to the environment (H400, H410, H411, H412, H413) may be acceptable if the content of environmentally hazardous substance <14 g/per m² of surface	X
Hazardous to the ozone layer	H420	X

Sustainability

Metal

The metal used in the product meets the requirements set out in Table 3. The requirements include restrictions on certain alloys for parts intended for prolonged direct skin contact

Table 3: Requirements metal

Requirements	Complies
Metal that will have prolonged contact with skin (e.g. armrests) must not consist of alloys containing nickel, chromium III or chromium VI	X

Circularity

Product information, warranty and circularity

Developed for public environments and offices, with a focus on long service life and smooth day-to-day operation. The design makes it easy to care for, maintain and, when needed, replace parts, which can help extend its service life over time. Key product information, warranty and service options are summarised in Table 4.

Supporting longer use
- Can be disassembled for servicing and parts replacement when required.
- QR code on each bin with assembly, disassembly and care instructions.
- Contact TreCe for service options and guidance on refreshing/refurbishment.

Table 4: Product information, warranty and service options

Aspect	
Design	Jangir Maddadi
Product guarantee	2 years*
Product information & maintenance	QR code on each bin
Recyclable	All parts can be materially recycled
Service	Contact TreCe for service options and guidance

***Warranty:** The warranty is valid from the date of delivery of the product. Invoice/order number must be quoted for the warranty to be valid. The warranty does not apply to products that have been stored or assembled incorrectly, used in an inappropriate or improper manner, altered in appearance/function or cleaned with an incorrect cleaning method or cleaning products. The warranty does not cover damage in transit, normal wear and tear, scratches, marks or damage caused by impact or accident. The warranty does not apply if the product has been placed outdoors or in a humid environment, or if the product has been used for purposes other than those for which it is intended.

For products intended for outdoor use, the aforementioned humid environment does not apply, but the warranty period is halved for installation within 200 metres of a coastal environment. The warranty does not apply to outdoor products where surface corrosion occurs over time as this is purely aesthetic and can be remedied with touch-up paint.

General care instructions

Metal
Wipe with a slightly damp, soft lint-free cloth and mild detergent. Always wipe dry with a dry cloth. Never use solvents on painted metal nor any abrasive cleaners/ materials.
